

ZIPNER 110 COMPACT

ae
AVAEKSPERDID

Zipner 110 Compact on mudel, kus alaprofiil on süsteemi kassetti sisse peidetav. See annab puhta väljanägemise, kui süsteemi ei kasutata. Sellele on lihtne juurde pääseda kasseti alaküljelt. Tänu oma minimalistlikule disainile sobib see zip-mudel ideaalselt pergolate või talveaedade külgmiseks päikesevarjuks.

TEHNILISED ANDMED

Konstruksiooni standard värvid:

Mõõtmed:

(L) Min: 1000 mm Max: 4000 mm

(H) Min: 1000 mm Max: 2750 mm

Kassett:

Ruudukujuline, alumiinium
